

Design System 1.0

Side Drawer: The side drawer element appears when user clicks on the profile option from the navigation bar at the bottom. When the side drawer slides in it makes the background blur with black color overcast.

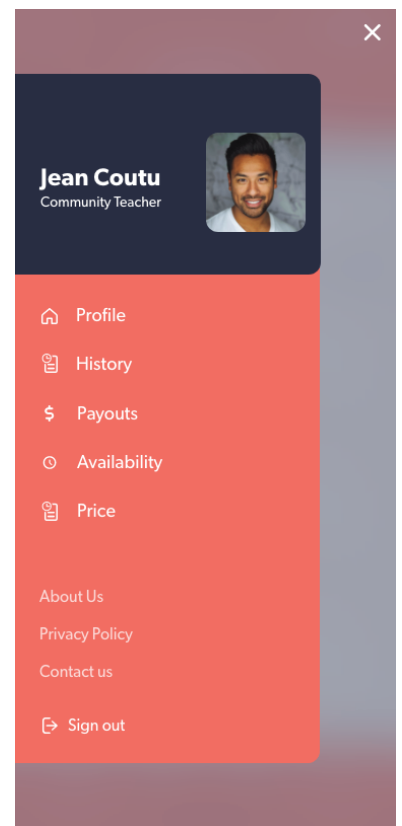

1. Clicking Profile button

2. Side drawer slide opens with blurry dark background.

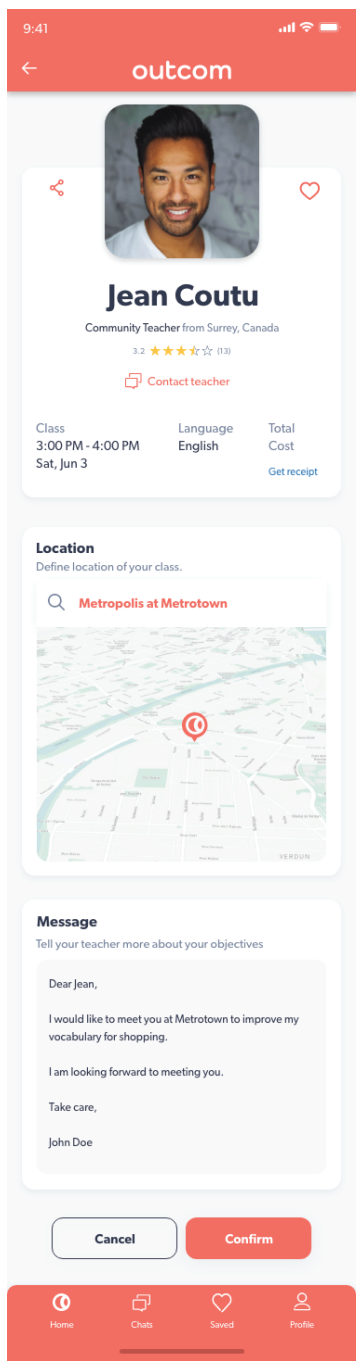

Student view

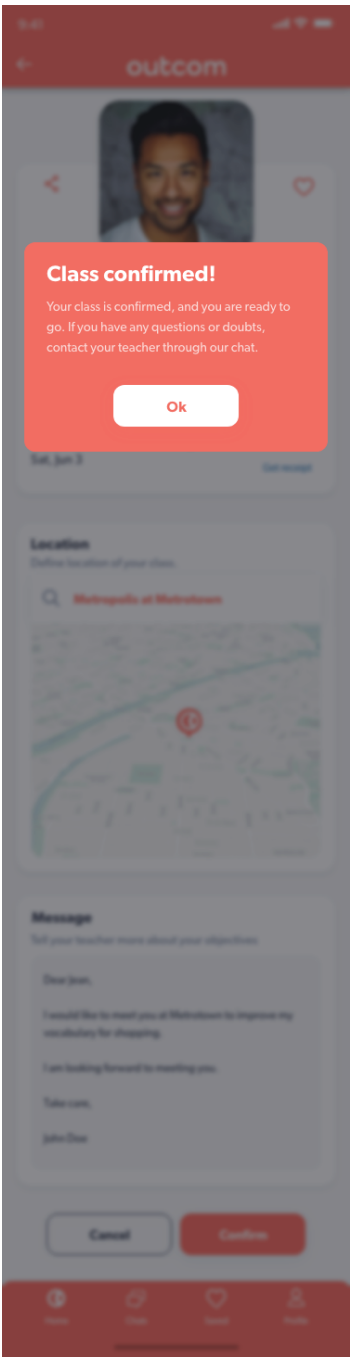

Teacher view

Modal: This is the modal that pops out after the user hit the confirmation button. First, the user selects the desired language teacher and after finalizing the details, the user hits confirm button and then this modal is displayed with a blurry dark background.

2. Modal pops up with blurry dark background

1. Clicking confirm button

Buttons: These are the buttons that are being used for Outcom. The buttons are having rounded edges which makes them look modern and smooth. The buttons have a lighter shade of coral color (#F26E63) and when the user hower on the buttons and/or when the buttons get clicked they turn into darker shade of coral color (#F05145). For the cancel button, the background color of the button changes to navy blue shade (#2A2E43) from white color (FFFFFF).

For the toggle On/Off button, the background color changes. When it is toggle ON, the background color is coral (#F26E63) and when it is toggle OFF, the background color is navy blue (#2A2E43).
